DAILYWEAR AIRBRUSH MAKEUP

Hello, I'm Dina the President and founder of Dinair.

I spray on my Dinair foundation, blush, eye-shadow, eyebrows and eyeliner everyday.

As a professional makeup artist and cosmetologist, I have been airbrushing our makeup products for over 25 years. I designed Dinair for

the demanding needs of film and high definition television. Leading makeup artists around the world use our makeup systems and cosmetics because of the flawless coverage.

Now with the new Personal-Pro Kit, Dinair is available to everyone. High Definition is coming to our personal lives, to our cameras and soon to our cell phones. Everyone will soon be the "Star" of their own high definition world: every flaw, blemish and makeup smudge disappears with Dinair. For many years, Dinair has been the secret weapon of the Stars, and now it can be yours.
