

Dinair Rx™

Only air and makeup touch the skin

Plastic surgeons, cosmetic surgeons, skin care specialists and aestheticians recommend Dinair for their patients following a facelift or surgical procedure, to cover scars, bruising and camouflage swelling and inflammation.

Dinair glamour and Paramedical is a fully opaque coverage where needed, that blends seamlessly into lighter coverage areas, and are now easy to camouflage without any telltale buildup.

Experience the comfort and confidence of Dinair extended wear, rub resistant, water proof, Paramedical airbrush makeup for active living.

- No brushes or sponges
- Touch free application
- Dropper dispensed colors

Medi Spa Kit

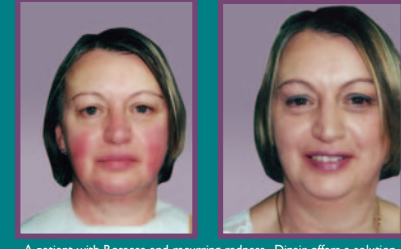

COLOR, TAN & PARAMEDICAL

Hide the bruising and inflammation from plastic surgery procedures.

Easy application conceals the redness and scarring common with acne.

A patient with Rosacea and recurring redness. Dinair offers a solution.

"The Dinair System is a great mechanism for concealing scars or uneven pigmentation. I've seen the results on burn patients and found it to be an effective tool for creating a smooth, even appearance over skin grafts and scars".

- Dr. Peter Grossman
Grossman Burn Center

Workshops

Success is a choice.
Train with the world's leading experts in airbrush cosmetics.

Master the skills needed to be successful in a high definition world. The Dinair Institute - offering intensive and proprietary 2 day workshops in the Dinair airbrush makeup technique for over 15 years. Airbrush makeup training exercises have been carefully designed to support the rapid learning of these new skills. Master the Dinair airbrush beauty techniques for foundation, cheek, eye shadow, eyeliner, eyebrows, eyebrow hairs and lips. Learn Dinair camouflage and paramedical techniques for face, body, scalp and hair. Learn Dinair stencil techniques and applications for medical aesthetics, fashion and fantasy. The workshop also includes professional artistry training for Dinair Airtan™ airbrush tanning.

Learn how to Dinair your clientele and how to do your own Dinair makeup. Learn how to teach your clientele to Dinair themselves, with the Dinair Mini Kit.

Learn how to produce high definition quality makeup quickly, consistently and confidently, every time.

ello... I'm Dina, the president and founder of Dinair. As a professional makeup artist and cosmetologist, I saw the need for a new makeup concept that could keep pace the demanding world of the television and film industry. Dinair is now used in film and high definition television worldwide.

When I tried it as my makeup, I really liked it. Everything that made

it great for the Stars, made me love it. I discovered it was the perfect makeup for my busy lifestyle. Why not? It was designed to be fast, picture-perfect and sanitary.

I love my airbrushed look. My Makeup is hypoallergenic, feels light, skin friendly, long lasting, and an impeccable camouflage.

I began inventing the Dinair Airbrush Makeup System in 1981. We are still inventing the future of makeup. Since 1984, leading makeup artists from all over the world have come to learn the Dinair System, and are still coming today.

Spray Yourself

The spraybrush is held five to six inches from the foundation area to be sprayed. Simply start moving side to side, and pull the lever to very lightly release makeup.

Spray it Beautiful

Now you too can have the Airbrushed look of the Stars.

The Dinair Mini Salon Retail Opportunity
