

DINAIR[®]

Airtan™ You'll love this...

\$ 728.00

The Dinair Airtan™ kit is a great way to get started. The kit includes 32 oz. of Dinair Airtan™, the Dinair Professional Beauty Int'l compressor which weighs only 2 lbs, and is ready for travel with an AC power adapter for 100 volt to 240 volt countries. It includes the the 8 foot long hose for full body tanning and the Bodyart airbrush for Airtan™.

Airtan™ is sprayed on in a light gentle mist at 5 psi. to 5 1/2 psi. The guide color gives the instant appearance of a beautiful tan. It can be applied as an even, or contoured coverage. The guide color in addition to being the pleasing initial appearance, is how we see where and how much of the active tanning ingredients are being applied.

DHA is the primary active tanning ingredient and reaches most of it's color potential in a period of 4 to 5 hours. Erythrulose, the second and more costly active tanning ingredient, which produces it best result by having all night to process.

The Airtan™ tan will last up to ten days.

- Lasts 7 to 10 days.
- Gentle spray of 5 psi.
- Non-sticky when dry.
- Odor-free when dry.
- Dry to the touch in 10 minutes.
- No powdering needed.
- Spray falls in a two foot radius.
- Good for in-home application.
- No special ventilation is required.
- Absorbed Airtan™ will not rub off on clothes or sheets

Dinair Airtan™ has been Voted #1 as the sunless tanners by the National Enquirer. Dinair Sunless Tanner is streak-free and gives a natural-looking golden tan. With Dinair Airtan™, you will not have to expose yourself to damaging UV rays to get a tan. UV rays are well known to cause sun burns, premature aging, and even skin cancer.

Airtan™ applies easily and evenly for a very natural sun tanned appearance. Airtan is absorbed gradually becomes dry to the touch in 10 to 15 minutes.

You can actually see the tan go on as you spray. Dinair's Sunless Tanner will not rub off onto clothes, bed sheets, etc.

The Airtan™ will last 7 to 10 days with proper application.
