- AirHairs Eyebrow Stencil
- Lip Edge Stencil

Spa Lite Makeup & Airtan™

The Dinair Spa Lite Makeup and Airtan™ kit is a great way to get started. The kit includes 10 shades of Dinair Glamour airbrush makeup or select your own colors. The Dinair Professional Beauty Int'l compressor only weighs 2 lbs, and it's ready for travel with an AC power adapter ready for use in 100 to 240 volt countries. The Beauty airbrush is for the delicate touch of Dinair makeup and a second Body airbrush specialized for Airtan™. The 6 foot long hose is for makeup and the 8 foot long hose for full body tanning.

Airtan™ is sprayed on in a light gentle mist at 5 psi. to 5 1/2 psi. The guide color gives the instant appearance of a beautiful tan. It can be applied as an even, or contoured coverage. The guide color in addition to being the pleasing initial appearance, is how we see where and how much of the active tanning ingredients are being applied.

DHA is the primary active tanning ingredient and reaches most of it's color potential in a period of 4 to 5 hours. Erythrulose, the second and more costly active tanning ingredient, which produces it best result by having all night to process.

The Airtan™ tan will last up to ten days.
